ABSTRACT

This report provides annual information for the 1997-1998 school year on grade-level retention in the Texas public school system, based on the Public Education Information Management System. In 1997-1998, a total of 150,953 students in kindergarten through grade 12 were retained in grade, an overall retention rate of 4.3%. Data on retention are provided by grade, ethnicity, gender, participation in special education, degree of English proficiency, and socioeconomic status. For purposes of comparison, data on retention for 1994-1995 through 1996-1997 are included. Four appendixes contain tables of grade-level retention by grade and ethnicity, school district characteristic, and campus characteristic, and district grade-level retention by grade. (SLD)

Highlights

How extensive was grade-level retention in Texas?

- In 1997-98, a total of 150,953 students in kindergarten through Grade 12 were retained in grade, for an overall retention rate of 4.3 percent.
- From 1994-95 to 1997-98, the overall retention rate increased from 4.0 percent to 4.3 percent.
- Across all grades, Grade 9 had the highest retention rate (17.6%).
- At the elementary level, Grade 1 had the highest retention rate (6.0%).
- From 1996-97 to 1997-98, retention rates at the elementary and middle school grades increased slightly, while retention rates for high school grades decreased slightly.

Who was retained?

- Males were retained at a higher rate than females, across years and grade levels.
- Hispanic and African American students were retained at higher rates than White students.
- From 1996-97 to 1997-98, retention rates for Whites remained the same, while the rates for both African Americans and Hispanics increased.
- Economically disadvantaged students were retained at a higher rate than students who were not economically disadvantaged.

Where were they retained?

- Districts in urban areas had the highest retention rates.
- From 1996-97 to 1997-98, retention rates increased among districts and campuses with higher percentages of ethnic minority students and lower percentages of students passing the Texas Assessment of Academic Skills.

Introduction

Grade-level retention is typically defined as delayed entry of a child who is of appropriate chronological age but not developmentally ready or mature enough to enter school, or repetition of a grade a student was unable to complete successfully (Shepard, 1989). The primary goal of retention is to give a student a year to mature or master the academic tasks of one grade level before advancing to the next.

In compliance with Texas Education Code (TEC) §39.182, the Texas Education Agency (TEA) prepares an annual report on grade-level retention in the Texas public school system. This report presents information on grade-level retention for the 1997-98 school year. Breakdowns are provided by grade, ethnicity, gender, participation in special education, degree of English proficiency, and socioeconomic status. For purposes of comparison, data on retention for 1994-95 through 1996-97 are included.

The report will provide the legislature, TEA, and educators with background for reviewing current and future policies related to grade-level retention. Senate Bill 4 added TEC §28.0211 in 1999. This new statute phases in a process of enrolling students who fail the Texas Assessment of Academic Skills (TAAS) at Grades 3, 5, or 8 in accelerated instruction. Accelerated instruction is designed to ensure that students acquire the skills needed to catch up with their classmates. Students at these grade levels will be given three opportunities to take and pass the TAAS for their grade. Students who do not pass the TAAS at these grades may be retained. Although the intent of the law is to eliminate the practice of social promotion, grade-level retention should be the avenue of last resort. Monitoring and reporting of retention rates will be central to efforts to gauge the impact of these new policies over time.

Methods

Data Source

The Public Education Information Management System (PEIMS) includes data on the grade levels of all students in the Texas public school system (TEC §29.083).

Identifying Grade-level Retention

To determine the number and percentage of students retained in grade, October enrollment data were matched at the student level against attendance data for the previous school year. Students who dropped or migrated out of the Texas public school system after the first year were excluded from the total student count, as were students new to the system in the second year. Students who enrolled both years or graduated were included in the total student count. Please note that the criteria for tracking students in PEIMS was modified during the 1998-99 school year. As a result, the percentage of students identified as having been enrolled in successive years (and, consequently, the total student count) was smaller in 1997-98 than in previous years.

Among students included in the total student count, students enrolled in the same grade both years were counted as retained. The retention rate was calculated by dividing the number of students retained by the total student count.

Table 1. Grade-level Retention in Texas Public Schools, 1994-95 Through 1997-98

Year	Total Students*	Number Retained	Retention Rate
1994-95	3,193,214	128,369	4.0%
1995-96	3,399,451	144,683	4.3%
1996-97	**3,475,407**	**147,202**	**4.2%**
1997-98	**3,470,630**	**150,953**	**4.3%**

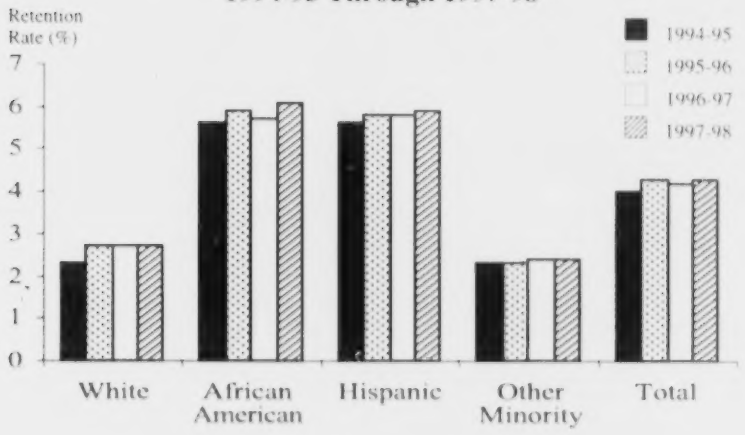
Grade-level Retention of Students

Number of Students Retained

Of the total number of Texas public school students reported in kindergarten through Grade 12 in the 1994-95 school year, 4.0 percent (128,369 students) were retained in grade, whereas 4.3 percent (150,953) were retained in grade in 1997-98 (Table 1). There were slight fluctuations in the retention rate over the four years, but it remained between 4.0 and 4.3 percent. The absolute number of students retained increased each year, as did the number of students enrolled in Texas public schools.

Figure 1. Grade-level Retention by Ethnicity, 1994-95 Through 1997-98



Number of Students Retained

	White	African American	Hispanic	Other Minority	Total
1994-95	38,593	24,452	63,490	1,834	128,369
1995-96	43,302	27,871	71,453	2,057	144,683

1997-98	42,987	29,362	76,343	2,261	150,953

Source: Public Education Information Management System, Texas Education Agency

Grade-level Retention by Ethnicity

Hispanic and African American students were retained at average rates over twice that of White students (Figure 1). In 1997-98, for example, 2.7 percent of White students were retained in grade, compared to 5.9 percent of Hispanic students and 6.1 percent of African American students.

Minority students also continued to be over-represented among retained students. Each year between 1994-95 and 1997-98, about 5 out of 10 students enrolled in Texas public schools were Hispanic or African American. However, during the four-year period, almost 7 out of 10 students retained each year were from one of these two ethnic groups. Hispanic students consistently represented the largest number of students retained, followed by White students.

Appendix A summarizes grade-level retention for school years 1994-95 through 1997-98. The table lists the number and percentage of students retained in each grade by ethnic group.

Grade-level Retention by Gender

Over the four-year period, males were more likely than females to be retained in each grade and within each ethnic group. About 3.2 percent of female students were retained in the 1994-95 school year, compared to 4.8 percent of male students. By 1997-98, the retention rate for females was 3.5 percent, and the rate for males was 5.2 percent. Each year between 1994-95 and 1997-98, male students made up about 61 percent of all students retained.

Grade-level Retention by Grade

The percentage of students retained varied markedly by grade (Figure 2). Students in ninth grade had the highest average retention rate in each of the four years reported, and students in fifth grade had the lowest average retention rate. From 1996-97 to

Source: Public Education Information Management System, Texas Education Agency

1997-98, the retention rates in high school grades dropped slightly, while retention rates across elementary and middle school grades increased slightly.

Between 1994-95 and 1997-98, the number of students repeating Grade 9 rose by 7,277, and the retention rate increased from 16.8 percent to 17.6 percent (Table 2). Approximately one out of six ninth-grade students repeated the grade each year. Between 1996-97 and 1997-98, both the percentage and total number of students retained in ninth grade decreased slightly. Compared with White students, disproportionately large percentages of Hispanic and African American students were retained in Grade 9. Even in terms of absolute numbers, more than twice as many Hispanic students as White students were retained in ninth grade in 1997-98. Approximately one-fourth of all African American and Hispanic ninth graders were retained.

At the elementary level, the highest average retention rate was found in first grade. In 1997-98, a year after experiencing a sharp decline to 5.6 percent, retention among first graders climbed to its highest rate (6.0%) since 1994-95 (Table 3). As in ninth grade, Hispanic and African American students had the highest rates of retention among all ethnic groups in Grade 1. The largest year-to-year increase in reten-

1997-98	**29,681**	**6.5%**	**121,272**	**4.0%**

Source: Public Education Information Management System, Texas Education Agency

Students Receiving Special Education Services

Each student in a special education program has an individual education plan (IEP) that specifies goals and objectives for the year. The student progresses to the next grade level whenever these goals are met. As shown in Table 4, a disproportionately large percentage of students participating in special education (6.5%) were retained, compared to students who were not participating (4.0%). The retention rate for each group rose between 1994-95 and 1997-98, with students receiving special education services showing a slightly larger increase. Because students who meet their IEP goals during the year are promoted when they meet their goals (not necessarily at the end of the school year), the retention rate for students participating in special education may be slightly inflated.

Students Learning a Second Language

Students with limited English proficiency are learning English at the same time they are learning reading and other language arts skills. Reading and language problems have been shown to be highly correlated with retention in the elementary grades (Kaczala, 1991; Marcon, 1993). Depending on their levels of English skills, most second-language learners (SLLs) are enrolled in bilingual or English as a second language (ESL) programs (TEC §29.053). SLL students participating in special education receive bilingual or ESL services as part of their special education plans. While parents may request that a child not receive special language services, in 1997-98, 92 percent of SLL students participated in bilingual or ESL programs.

Table 5. Grade-level Retention by Second-Language Learner Status and Services Received, 1994-95 Through 1997-98

Grade	Year	Students Learning a Second Language										All Other Students

[a] English as a second language. [b] Including students whose parents requested the student not be served by a special language system.

As in previous years, the retention rates for both elementary- and secondary-grade SLL students were consistently higher in 1997-98 than the rates for other students in those same grade spans (Table 5). SLL students in the elementary grades had similar retention rates whether or not they were participating in bilingual, ESL, or special education programs. At the secondary level, the retention rates for SLL students receiving ESL or special education services and SLL students not receiving services were notably higher than the rate for non-SLL students. Students receiving bilingual services had the lowest retention rate among SLL students in Grades 7-12. Between 1996-97 and 1997-98, elementary grades showed slight increases in retention rates across groups, while rates in the secondary grades generally decreased.

Students Who Were Economically Disadvantaged

Between 1994-95 and 1997-98, the average retention rates for students identified as economically disadvantaged were consistently higher than the rates for other students (Table 6 on page 10). Each year, economically disadvantaged students represented higher proportions of both the total number of students enrolled and the total retained in Texas public schools. In 1997-98, 45.7 percent of students overall and 54.4 percent of retained students were identified as economically disadvantaged. The retention of students who were economically disadvantaged increased from a rate of 4.9 percent in 1994-95 to 5.4 percent in 1997-98. During this period, the rate for students who were not economically disadvantaged fluctuated between 3.4 percent and 3.6 percent. In 1997-98, the retention rate for economically disadvantaged students increased by 0.3 percentage points over the previous year, but the rate for non-economically disadvantaged students decreased by 0.2 percentage points.

Grade-level Retention and District and Campus Characteristics

Texas school districts differ considerably with regard to community type, size, student performance, and expenditures. Retention rates in districts across these categories tend to differ as well. Appendix B includes a list of retention rates by district characteristics for 1997-98.

Districts in urban areas, excluding 19 charter schools, had the highest average retention rate in 1997-98 (6.2%). Across the state, higher retention rates were generally associated with districts that had higher percentages of ethnic minority students, economically disadvantaged students, and/or ethnic minority teachers. School districts with lower percentages of students passing the TAAS also showed higher rates of retention. As might be expected, many of these characteristics were typical of districts classified as urban.

At the campus level, higher retention rates were associated with schools that had characteristics similar to those of districts with higher retention rates. One exception was the percentage of students identified as economically disadvantaged at the campus level. Appendix C includes a list of retention rates by campus characteristics for 1997-98.

Appendix D contains retention rates by grade for each school district in Texas in 1997-98.

Conclusions

Between 1994-95 and 1997-98, the number of students retained increased from 128,369 (4.0%) to 150,953 (4.3%). Moreover, retention appears to have affected minority populations disproportionately: nearly 7 out of 10 students retained each

year were Hispanic or African American. From 1996-97 to 1997-98, the retention rates for Whites and Other Minorities stayed the same (2.7% and 2.4%, respectively), while the rate for African Americans increased from 5.7 percent to 6.1 percent, and the rate for Hispanics increased slightly from 5.8 percent to 5.9 percent.

From 1996-97 to 1997-98, retention rates at the elementary and middle school grades generally increased slightly, while the retention rates for the high school grades decreased slightly. Kindergarten, first grade, and second grade showed some of the larger increases in retention rates.

By far, the highest rate of grade-level retention over the four-year period was in the ninth grade, where about one out of six students was repeating that grade each year. At the elementary level, retention continued to occur most frequently in the first grade.

Consistent gender differences were evident in retention rates for the four years, as well. Male students had a higher average retention rate than female students at every grade level and within each ethnic group.

Students needing special services tended to have higher retention rates than other students. Students receiving special education services had a higher average retention rate than non-special education students, and second-language learners had a higher average retention rate than other students. In addition, students identified as economically disadvantaged had a disproportionately high average retention rate, compared to students who were not economically disadvantaged.

At the district and campus levels, higher retention rates were generally observed in urban community settings. Rates also increased among districts and campuses with higher percentages of ethnic minority students and lower percentages of students passing the TAAS.

Senate Bill 4, passed by the Texas Legislature in 1999, phases in new standards for student promotion at Grades 3, 5, and 8. Students at these grade levels will have three opportunities to take and pass the TAAS. Students who do not pass the TAAS at these grades may be retained. The legislation requires school districts to enroll students who fail the TAAS at these grade levels in a program of accelerated instruction. Although the intent of the law is to eliminate the practice of social promotion, grade-level retention should be the avenue of last resort. Any attempt to evaluate the impact of these policies in the future will need to be grounded in an understanding of current trends in grade-level retention.

Appendix B
Notes on 1997-98 District Characteristics

Enrollment Groupings
A nine-category grouping based on the total number of students enrolled by district as of the Public Education Information Management System (PEIMS) fall collection date (late October of each year). Enrollment excludes students who are served but not enrolled by districts.

District Type
Classification of school districts based on factors such as size, growth rates, and proximity to urban areas is listed below. Charter school districts form a separate category.

Major Urban. The state's largest metropolitan districts serving the Houston, Dallas, San Antonio, Fort Worth, Austin, and El Paso areas.

Major Suburban. Other districts in and around the major urban areas.

Other Central City. Major districts in other large Texas cities.

Other Central City Suburban. Other districts in and around the other large, but not major, Texas cities.

Independent Town. Largest districts in counties with populations of 25,000 to 100,000.

Non-Metro: Fast Growing. Districts not fitting in any of the above categories but exhibiting a five-year growth rate of at least 20 percent with at least 300 students enrolled.

Non-Metro: Stable. Districts not fitting in any of the above categories but with an enrollment exceeding the state median.

Rural. Districts not fitting in any of the above categories; districts either with an enrollment between 300 and the state median and a growth rate less than 20 percent, or with an enrollment less than 300.

Charter School Districts. The open-enrollment school districts chartered by the State Board of Education. Charter schools operate in facilities of commercial or nonprofit entities or school districts.

Wealth
Total taxable property value divided by enrollment, which indicates district ability to raise local funds on a per pupil basis. The property value used is total taxable value for the last completed calendar year—i.e., 1997, as determined by the Comptroller's Property Tax Division (CPTD). Enrollment is for the 1997-98 school year. The first wealth grouping shows 10 categories; the second simply shows districts above and below state average wealth; the third is a 20-category grouping, with each category representing about five percent of the state's students. The special statutory and charter school districts without taxable property wealth form a separate category in all three wealth groupings.

Total Tax Effort
A four-category tax effort grouping of districts defined by the total effective tax rate, which was determined by dividing the last completed calendar year's total levy amount by that year's CPTD total taxable property value. Rates are expressed per $100 of taxable value. A fifth category is reserved for the special statutory and charter school districts without property tax levies.

Maintenance and Operations (M&O) Effective Tax Effort
A four-category tax effort grouping of districts showing the M&O effective tax rate, which was determined by dividing the last completed calendar year's M&O levy amount by that year's CPTD total taxable property value. The M&O rates shown include money generated by districts for equalizing wealth. A fifth category is reserved for the special statutory and charter school districts without property tax levies.

Highest Property Value Category
A four-category CPTD classification based on property use. A district is placed into the category that represents its greatest total property value. A fifth category is reserved for the special statutory and charter school districts without taxable property wealth.

Residential. Single-family, multi-family, and residential inventory.

Land. Vacant lots and rural real property (taxable).

Oil and Gas. Oil, gas, and minerals.

Business. Commercial and industrial real property, commercial and industrial personal property, and utilities.

Small/Sparse Adjustment
A four-category grouping of districts based on the small/sparse adjustment amount as a percentage of the total adjusted basic allotment amount. The small/sparse percent-

age represents the extent to which state funding is adjusted to compensate for small and/or sparsely populated districts. A fifth category is reserved for districts receiving no small/sparse adjustment.

Cost of Education Index (CEI) Level
A five-category grouping of districts based on the Cost of Education Index level. It reflects geographic variations in costs and prices outside district control. The current index, which has a minimum value of 1.0 and a maximum of 1.2, was first implemented in 1991-92.

Operating Cost Per Pupil
A five-category grouping of districts based on operating cost per student. Operating costs are the sum of all expenditures budgeted for the operation of the district for all funds. The operating expenditures are a subset of the total expenditures; they do not include debt service, capital outlay, or ancillary services expenditures. Per student amounts are the school year expenditures divided by enrollment. The source for budgeted expenditures is the fall PEIMS submission.

Education Service Center (ESC) Region
The state is divided into 20 geographic regions, each served by an Education Service Center. This category reflects the ESC region from which the district receives services, not the geographically assigned ESC region. For the vast majority of districts, these are the same.

TAAS: Percent Passing All Tests Taken
A five-category grouping of districts based on the percentage of students passing the 1998 Texas Assessment of Academic Skills (TAAS). For Grades 3-8 and 10, the total number of students passing all sections of the TAAS taken is expressed as a percentage of the total number of students taking one or more tests. This percentage (a) excludes students taking the test in Spanish and special education students; and (b) includes only those students in the district in October of the school year. These are the results used for accountability purposes. A sixth category is reserved for districts not administering the test.

SAT/ACT: Percent Taking
A three-category grouping based on the percentage of 1996-97 graduates taking the SAT I and/or the ACT assessment. A fourth category is reserved for districts that had no graduates.

SAT/ACT: Percent Scoring At or Above Criterion
A five-category grouping based on the percentage of 1996-97 examinees who scored at or above the criterion (1110 on the SAT I Total and/or 24 on the ACT Composite) on the SAT I and/or ACT. The number meeting the criterion is divided by the number of examinees. A sixth category is reserved for districts that had no examinees.

Density
A four-category grouping based on density, or the number of students enrolled per square mile. District square miles were determined through a joint effort by the State Property Tax Board (SPTB, now the CPTD), the Texas Education Agency, and the Texas Water Commission (TWC). Maps provided by districts to the SPTB were digitized by TWC to determine acreage. A fifth category is reserved for the special statutory and charter school districts without available mileage information.

Pupil Change from Prior Year
A five-category grouping based on the growth or decline in district student population over a one-year period. Districts with declining enrollment represent one category, while the remaining categories show one-year growth rates ranging from "0%-3%" to "10% and over."

Percent African American, Hispanic, and Minority Pupils
Three six-category groupings based on the ethnic composition of district student populations, as reported in PEIMS. Minority percentage is calculated as the sum of all non-White populations expressed as a percentage of the total. Non-White populations include American Indian or Alaskan Native; Asian or Pacific Islander; African American, not of Hispanic origin; and Hispanic.

Percent Economically Disadvantaged Pupils
A six-category grouping based on the percentage of students enrolled in the district who are classified as economically disadvantaged in PEIMS as follows:

a) eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
b) from a family with an annual income at/below the federal poverty line;
c) eligible for AFDC or other public assistance;
d) recipient of a Pell Grant or comparable state need-based financial assistance program; or
e) eligible for programs assisted under Title II of the Job Training Partnership Act.

Average Teacher Experience
A four-category grouping based on average years of teacher experience. This average is computed by taking the total years of professional experience for each district teacher, multiplying by each teacher's full-time-equivalent (FTE) count, summing these products for the whole district, and dividing by the total teacher FTE count.

Average Teacher Salary
A four-category grouping based on average district teacher salary. This average is computed as the total salary of teachers divided by the total teacher FTE count. Total salary amount does not include any other supplement.

Percent Minority Teachers
A six-category grouping based on the minority composition of district teaching populations. Minority percentage is calculated by summing all non-White teacher FTEs and dividing by the total teacher FTEs.

Percent Teachers with Advanced Degrees
A four-category grouping based on district percentage of teachers with advanced degrees. This percentage is computed as the FTE count of teachers with a master's or doctoral degree divided by the total teacher FTE count.

Appendix C
Notes on 1997-98 Campus Characteristics

Campus Type
Campuses are classified into four categories based on the range of grades offered. Total membership, as reported to the Texas Education Agency (TEA), is used to construct grade ranges. The categories are:

1. Elementary Schools
2. Middle and Junior High Schools
3. High Schools
4. K-12 Schools

Campus Accountability Rating
This category refers to the campus rating based on the 1998 accountability system. A campus' rating is based on performance on the Texas Assessment of Academic Skills (TAAS), the dropout rate, and the attendance rate. The four levels of accountability ratings for campuses and the *general* conditions of each of the criteria for 1998 are as shown.

1998 Rating	TAAS Passing	Dropout Rate	Attendance Rate
Exemplary	>=90%	<=1.0%	>=94%
Recognized	>=80%	<=3.5%	>=94%
Acceptable	>=40%	<=6.0%	>=94%
Low-Performing	<40%	>6.0%	>=94%

Some campuses are shown as "Alternative Education," "Not Rated," or "Not Applicable." Campuses classified as "Alternative Education" are evaluated separately under an alternative education accountability system. "Not Rated" campuses include first-year charter schools, or the prekindergarten, kindergarten, or early education centers that are not rated because standardized test data are not available at those grade levels. "Not Applicable" campuses are those with insufficient data to evaluate.

Average Teacher Experience
A five-category grouping based on average years of teacher experience. This average is computed as total years of professional experience for all campus teachers divided by the total teacher full-time equivalent (FTE) count. A sixth category, "Not Applicable," is reserved for campuses reporting enrollment but not teachers.

Percent Teachers with Advanced Degrees
A five-category grouping based on district percentage of teachers with advanced

degrees. This percentage is computed as the FTE count of teachers with master's or doctoral degrees divided by the total teacher FTE count. A sixth category, "Not Applicable," is reserved for campuses with unreported teacher FTEs or campuses with no teachers with advanced degrees.

Percent Minority, African American, and Hispanic Teachers
Three five-category groupings based on the ethnic composition of campus teacher populations, as reported in the Public Education Information Management System (PEIMS). Minority percent is calculated as the sum of all non-White teacher FTEs expressed as a percentage of the total teacher FTE count. Non-White populations include American Indian or Alaskan Native; Asian or Pacific Islander; African American, not of Hispanic origin; and Hispanic.

Average Teacher Salary
A five-category grouping based on average campus teacher salary. This average is computed as the total salary of teachers divided by the total teacher FTE count. Total salary amount does not include any other supplement. A sixth category, "Not Applicable," is reserved for campuses reporting enrollment but not teachers.

Average Student/Teacher Ratio
A five-category grouping based on average student/teacher ratio. This average is computed as the total number of students in membership at each campus divided by the total teacher FTE count at the campus. A sixth category, "Not Applicable," is reserved for campuses reporting enrollment but not teachers.

Instructional Cost Per Pupil
A six-category grouping of campuses based on the instructional cost per pupil. Instructional costs are the sum of expenditures budgeted for all activities dealing directly with the instruction of pupils, including instruction through the use of computers, and managing, directing, supervising, and providing leadership for staff who provide instructional services. The per pupil amounts are the current school year budgeted expenditures divided by the current number of students in membership.

Enrollment Groupings
A five-category grouping based on the total number of students in membership at each campus as of the PEIMS fall collection date (late October of each year). Enrollment excludes students who are served by the campus but not in membership at that campus.

Percent Minority, African American, and Hispanic Pupils
Three five-category groupings based on the ethnic composition of campus student populations, as reported in PEIMS. Minority percent is calculated as the sum of all non-White student populations expressed as a percentage of the total. Non-White populations include American Indian or Alaskan Native; Asian or Pacific Islander; African American, not of Hispanic origin; and Hispanic.

Percent Increase in Pupils (96/97 - 97/98)
A five-category grouping of campuses based on the growth or decline in student population over a one-year period. A sixth category, "New Campuses," is reserved for campuses reporting students in the fall of 1997 for the first time.

Percent Economically Disadvantaged Pupils
A five-category grouping based on the percentage of students enrolled at each campus who are identified as economically disadvantaged in PEIMS as follows:

a) eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
b) from a family with annual income at or below the federal poverty line;
c) eligible for Aid to Families with Dependent Children (AFDC) or other public assistance;
d) recipient of a Pell Grant or comparable state program of need-based financial assistance; or
e) eligible for programs assisted under Title II of the Job Training Partnership Act.

TAAS: Percent Passing All Tests Taken
A five-category grouping of campuses based on the percentage of students passing the 1998 TAAS. For Grades 3-8 and 10, the total number of students passing all sections taken of the TAAS is expressed as a percentage of the total number of students taking one or more tests. This percentage (a) excludes students taking the test in Spanish and special education students; and (b) includes only those students enrolled in the district in October of the school year. These are the results used for accountability purposes. A sixth category is reserved for campuses not administering the test.

Average Dropout Rate (96-97)
A four-category grouping of campuses based on the total number of dropouts in Grades 7-12 expressed as a percentage of the total number of students in membership in Grades 7-12. A fifth category, "Not Applicable," is reserved for elementary-grade campuses.

SAT/ACT: Percent Taking
A five-category grouping based on the percentage of 1996-97 graduates taking the SAT I and/or the ACT Assessment. A sixth category is reserved for campuses that had no graduates.

SAT/ACT: Percent Scoring At or Above Criterion
A five-category grouping based on the percentage of 1996-97 examinees who scored at or above the criterion (1110 on the SAT I Total and/or 24 on the ACT Composite) for the SAT I and/or ACT. The number meeting the criterion is divided by the number of examinees. A sixth category is reserved for campuses that had no examinees.

COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a nonsegregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964 AS AMENDED BY THE EQUAL EMPLOYMENT OPPORTUNITY ACT OF 1972; EXECUTIVE ORDERS 11246 AND 11375; EQUAL PAY ACT OF 1964; TITLE IX, EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED; IMMIGRATION REFORM AND CONTROL ACT OF 1986; AMERICANS WITH DISABILITIES ACT OF 1990; AND THE CIVIL RIGHTS ACT OF 1991.

The Texas Education Agency shall comply fully with the nondiscrimination provisions of all federal and state laws, rules, and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any educational programs or activities which it operates on the grounds of race, religion, color, national origin, sex, disability, age, or veteran status (except where age, sex, or disability constitutes a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency is an Equal Opportunity/Affirmative Action employer.
